

MANAGEMENT OF EVENTS IN AIR TRANSPORT

ACUTE PUBLIC HEALTH EVENTS

**World Health
Organization**

Air transport is a key challenge for preventing international spread of health risks

INCREASING TRANSPORT
of passengers and cargo

RAPID AIR TRANSPORT

- ▶ limited time for risk assessment
- ▶ quick international dissemination of diseases

NUMEROUS OPPORTUNITIES FOR INTERACTIONS between travellers, the public and airport workers

A need for a balanced response to guarantee

INTERNATIONAL HEALTH REGULATIONS

Public health and aviation sectors, together with other stakeholders have to manage public health events in air transport to avoid international spread of diseases.

DETECT & MANAGE PUBLIC HEALTH EVENTS DURING AIR TRANSPORT

COMMUNICATION - MONITORING

WHO provides State Parties with guidance to manage public health events in air transport: to better prevent spread of diseases, and to assist them in operating procedures and implementation of health measures.

This guidance is a "toolbox" from which countries can select the most relevant elements to address their own needs.

To download the complete guidance including the guide
